                     forwarded further information on the purchase of Mr.                      and asked us to follow up. At my request                      designated                      to act as Case Officer for Training to coordinate with us.                      called to say that                      has asked that the transaction be consummated on 27 September, but that while Mr.                      had all the papers ready, he felt that all pertinent points had not been covered and it would be preferable to hold off completion of the sale until                      return next week.
